1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Cary Kappel on 11-23-04.

The application has been amended as follows:

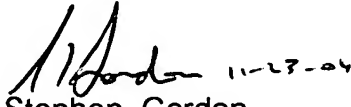

Claim 9 – last line, "catch" has been replaced with –hoop--, and a period has been inserted at the end of the claim.

2. The following is an examiner's statement of reasons for allowance: none of the prior art references either taken alone or in combination were deemed to teach or fairly suggest the instant combination closure device for a convertible top including a lateral roof frame as normally defined in the art, a hoop element, a first sliding element which pivotally accommodates a hook on the lateral roof frame, and a second sliding element wherein the hook is pivotable by drivable movement of the second element relative to the first element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
